
PROJECT REVIEW

OVERVIEW:

Blue Eagle Consulting was retained to provide contract consulting resources for a large IDN with more than 10 hospitals and numerous ambulatory clinics spread across two states. More than 30 consultants were delivered over a three-year period with a 100% client satisfaction rate.

PROJECT HIGHLIGHTS:

HOSPITAL

- Upgrade and Conversion of three *Paragon* HIS systems to *Siemens*
- Provided an enterprise-wide PMO assessment and recommendation for the BOD
- Support, upgrade, and convert a *Meditech* hospital to *Siemens*
- Support *NextGen In-Patient* system
- Support and conversion of three *HMS AS-400* systems to *Siemens*
- Enterprise reporting (*SQL*, *Crystal Reports*, *NPR*, *Scripting*, *Boston Workstation*, *RPG*)

AMBULATORY

- Implemented *Allscripts EMR* including base module, e-prescribe module, orders/results module (**\$200K** in PQRS incentives), prenatal module, and tasking module in 79 clinics. *V-11 Notes* rolled out to 50 clinics.
- Implemented *Allscripts PM* in 92 clinics. Stage I Meaningful Use met for all Eligible Providers live on *Allscripts* (**\$1.2M** in MU payments received).
- 5 Clinics reached level 3 *NCQA Recognition* (Patient Centered Medical Home), 2008 NCQA Standards in 2011. *Allscripts EHR* implementation made meeting many of the NCQA standards possible.
- *e-Rx Reporting* to CMS achieved through e-prescribe module in *Allscripts*, resulting in both avoidance of a penalty and incentive dollars in 2012 for many providers
- *CQS's PHM Channel* implementation in *Patient Centered Medical Homes* as a quality metrics monitoring tool
- Interface work for Results and Orders: *Softlab*, and *RMS Radiology*
- Interface work for Results: *CoPath*, *Syngo* (Radiology), *Syngo Dynamics* (Radiology), *MModal*
