ALLIANCE EVENTS

PRESIDENT'S MESSAGE

Welcome to Williamsburg – featuring the world's largest living history museum! In the 18th century, this beautiful city fostered ideas that defined the course of our nation's history. This week, Williamsburg will once again be the site of visionary ideas and leadership as SMA and the SMA Alliance gather together amidst the surroundings and traditions of America's first generation of leaders to explore and discuss future opportunities.

I am extremely excited about this year's schedule of activities in which we will spotlight so many wonderful Alliance achievements, enjoy numerous educational opportunities, and relish in quality time networking with long-time friends as well as new acquaintances. Be sure to visit the Alliance Hospitality area in the Tech-Knowledge Center to participate in this year's *Colonial Cache* Raffle and learn how you can become a charter member of the new Society of 1924. All proceeds benefit the Research & Education Endowment Fund.

As always, Alliance activities are open to any registered spouse or guest attendee, and we invite you to come to any of our meetings and learn how you can personally get involved – in the Alliance, in your State, and in your community. Our mantra is collegiality and knowledge – something medicine so desperately needs right now – and there is something uniquely different when a group of Southerners gets together in fellowship and work toward a common goal.

I look forward to personally welcoming you to Williamsburg and the Alliance!

Nancy Swikert M.D.

Nancy C. Swikert, MD
SMAA President, 2010-2011

Cardiovascular Disease... Interdisciplinary Challenges

The Williamsburg Lodge, Williamsburg, Virginia

November 3-5, 2011

Meeting Guide

Visit the Tech-Knowledge Center & SMA Hospitality Area

PRESIDENT’S MESSAGE

Welcome to the beautiful, historic city of Williamsburg, Virginia where history abounds and the American spirit is alive and thriving. Here you will experience in a singularly effective vehicle, multispecialty, interdisciplinary professional development which encompasses both the clinical and leadership aspects of medicine.

Gain valuable insight from experienced lobbyist and senior policy advisor Julius W. Hobson, Jr. Interact with recognized experts in cardiovascular disease, including William C. Roberts, MD, who will cover the cardiovascular spectrum—where it is, where it was, and where it is going in the future. With the addition of small group “Meet the Professor” sessions, no question will go unanswered!

Become an effective leader in the new, fast-changing healthcare environment by learning ways to implement care coordination and collaborative care, the role of performance metrics and “value-based” purchasing, and developing a more effective and team-based approach in order to achieve greater efficiencies. Hear about the processes to implement the Patient Centered Medical Home (PCMH) and e-health into your practice; the breadth of e-health, secure patient portal email, live interactive video, and health information exchange; and the regulatory environment.

Make sure and spend some time exploring the rich history of Colonial Williamsburg. Tour the museums, visit historic landmarks and enjoy dining in the 18th century or the 21st century. And don't forget the shopping!

It is my desire and the desire of the SMA Leadership Team that you leave the meeting with a renewed bias for action in your medical community.

Regards,

Eric C. Lindstrom

Eric C. Lindstrom, MD, MPH
President, Southern Medical Association

Keynote Speaker, Opening General Session

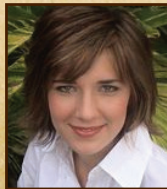

William C. Roberts, MD, MACC
Dr. William Roberts is Executive Director of the Baylor Cardiovascular Institute of Baylor University Medical Center in Dallas and Dean of the A. Webb Roberts Center for Continuing Education at Baylor Healthcare System. He received his M.D. from Emory University School of Medicine in 1958. Before coming to Baylor in 1993, he was Chief of the pathology branch of the National Heart, Lung and Blood Institute at the National Institutes of Health in Bethesda, Maryland, and with his colleagues there published more than 1,150 articles on cardiovascular disease in medical journals. Dr. Roberts has authored several books on cardiovascular disease, has spoken at more than 1,300 medical meetings and serves as Editor-in-Chief of *The American Journal of Cardiology*. His research focuses on morphologic aspects of cardiovascular disease.

SMA and SMA Alliance Installation and Awards Luncheon Keynote Speakers

Julius W. Hobson, Jr.
Mr. Hobson is Senior Policy Advisor at the firm where he lobbies on behalf of clients in a number of areas including health care, financial services, appropriations, budget, taxes and foreign affairs. He was previously Director of Division of Congressional Affairs, American Medical Association (AMA), where he managed the AMA's interaction with the U.S. Congress. Prior to assuming his current role, he was Assistant Director in the Division, where he was primarily responsible for lobbying the House Republican Leadership and covering the activities of the House Committees on Commerce, Ways and Means, Rules, and Armed Services, as well as the House and Senate Appropriations Committee, Budget Committees and the Senate Armed Services Committee. He has worked in both the House and the Senate. Mr. Hobson is Professional Lecturer, Graduate School of Political Management, George Washington University, where he teaches courses on lobbying and electoral and legislative processes.

Christie Scott
Ms. Scott is a certified life coach and motivational speaker. Her presentations have led many to describe her as “electric,” “passionate,” and “dedicated.” She understands the daily stress of balancing the needs of a personal life with the demanding pressures of a profession, and utilizes her talents as a successful business and lifestyle coach to guide individuals toward becoming more successful communicators, managers, and leaders.
