ACTION: It was moved and seconded to approve the Minutes taken at the November 17, 1998, meeting of the

Council, making the one correction mentioned. The motion carried unanimously.

REPORT OF THE PRESIDENT

Hugh E. Stephenson, Jr., MD

Dr. Stephenson thanked Dr. and Mrs. Waites for the great job in selecting Telluride as a meeting place for the Summer Meeting. Dr. Stephenson stated that we have a lot of important actions to consider at this meeting.

Dr. Stephenson expressed his appreciation to the Auxiliary and to Jeanny Kalaycioglu for representing the Auxiliary and SMA in an outstanding fashion.

Dr. Stephenson reported that SMA is going to have a tremendous annual meeting. He stated that SMA is going to have a private rodeo and that the Smothers Brothers will be entertaining and Bill Bennett will be speaking.

REPORT OF THE CHAIRMAN

James C. Waites, M.D.

Dr. Waites reported that it has been an exciting year immersed in change. He stated that the Council, as long as it keeps its focus, can define the over-all philosophy of the Southern Medical Association as an association that is distinct from other medical organizations. He stated that SMA is an organization devoted to providing service and support to physicians in the medical community.

Dr. Waites reported that the staff has been working on redefining our strategic plan for the coming years. A great deal of change transpired this past year, and many new programs and services were introduced.

Dr. Waites reported that financially last year was a difficult year for SMA, having to incur a substantial loss in operational activities, but with full awareness the Council elected not to raise dues. He stated that, as the Council will hear, we are recommend-

ing a slight dues increase beginning with the new millennium, that should help us move toward a much sounder fiscal policy.

Dr. Waites stated that it appears that there has been a definite turn-around in some of the problems we have been facing in our Fringe Benefit Programs. We are introducing some new products for the first time in several years; the outflow of money through claims in our Disability Program has decreased dramatically; and we are beginning to look at some major turn-around in our insurance program.

Dr. Waites stated that we might need to look at the structure of the annual meeting. He stated that the AMA is going to move its winter meeting back to November by 2005, which will put it around the same time as SMA's Annual Meeting.

Dr. Waites stated on behalf of his wife Jo and himself, he wanted to thank everyone for the support they have given him. He especially wanted to thank Jeanny Kalaycioglu and Merrill Rogers for their efforts on behalf of the Auxiliary.

REPORT OF THE AUXILIARY PRESIDENT

Mrs. Mehmet (Jeanny) Kalaycioglu

Mrs. Kalaycioglu reported that the SMA office received 170 requests for information about Doctors' Day.

Mrs. Kalaycioglu stated that the breast cancer awareness projects are making a difference in our communities. She stated that the SMAA would continue with the Susan G. Komen Foundation "Race for the Cure" that started last year. She stated that this is a nationwide event for the benefit of breast cancer research. She stated that printed t-shirts would be available to our members who participate in the race.

Mrs. Kalaycioglu stated that this year the SMAA also participated in the "Save the lid to save lives" project.

Yoplait Yogurt has joined the crusade to save lives by establishing a redemption program. For every pink lid sent to the Breast Cancer Research Foundation, Yoplait donated fifty-cents for cancer research. This project was well received by our Councilors.

Mrs. Kalaycioglu stated that she and Merrell Rogers visited 15 states. She stated they were warmly received in each state and spoke to their House of Delegates.

She stated that the Auxiliary deeply appreciates the generous support that this Council gives to the SMAA. She thanked Dr. Waites, Dr. Hamdy, and Dr. Stephenson for their guidance and wisdom.

Mrs. Kalaycioglu stated that it has been a wonderful experience serving as the 74th President of the SMA Auxiliary. She thanked everyone for giving Kally and herself the opportunity to share in a very wonderful, friendly, informative Association.

Mrs. Kalaycioglu introduced Mrs. Merrell Rogers, Auxiliary President-Elect.

ANNUAL REPORTS OF THE STATE COUNCILORS

Dr. Waites invited each Councilor to comment on any state activity that was not in his or her state report.

Dr. Howell asked if it would be possible to add the age to the list of non-renewing members that is sent to the Councilors.

REPORT OF THE EXECUTIVE VICE-PRESIDENT Mr. William J. Ranieri

Mr. Ranieri stated that he would like to cover three areas in his report. The first area was a review of the strategic plan that the staff has been working on for the past several months; second, was an in-depth review and discussion of the financial analysis and projections

that have been provided in a report to each of the Council members. Finally, he would discuss the opportunity for a new corporate entity that each of the Council members was aware of called GO-DOC.COM.

Mr. Ranieri stated that he has asked the attorney who is working with us to give a full presentation and overview of GO-DOC.COM, which he is scheduled to do on Saturday.

Mr. Ranieri reported that everyone at the Association was involved in the development of the Strategic Plan.

Mr. Ranieri reported that our Fringe Benefits efforts have enjoyed major improvement during the past year. He stated that perhaps the most significant change has occurred in our insurance program. He stated that the ever-mounting increases in our long-term disability program have placed a tremendous burden on the entire insurance program. He stated that we are fortunate to have two major developments occur this past year that will ease that burden tremendously. The first and perhaps most significant is that we are beginning to see a major improvement in experience, perhaps due to the number of significant changes we have had to make in that program over the past two years. In addition, we have been successful in finding another carrier, the UNUM Corporation, which is identified as the premiere long-term disability carrier in this country. We are offering four products through the UNUM Corporation; three of which are natural supplements to our current CIGNA program.

Mr. Ranieri stated that we hope that by offering these choices and quality programs, we will continue to see the trend toward improvement continue.

REPORT OF THE COORDINATING COMMITTEE ON MEMBERSHIP

Dr. Smith briefly gave a report from the Coordinating Committee on Mem-

bership.

Dr. Smith asked Ms. Lenoir if she felt that the money spent on membership recruitment in marketing contributed to the decrease in the loss of membership during 1998 and 1999.

Ms. Lenoir stated that the money spend on marketing during that time did help SMA with membership recruitment efforts. Ms. Lenoir stated that it cost \$334 to service and retain a member, and it cost more than \$1,200 to recruit a member.

Dr. Smith requested that SMA send the Councilors a master list on a monthly basis of physicians that are non-renewing dues paying members. He requested that the age of the member be included. Dr. Smith asked Dr. Farmer to follow-up this request at the Annual Meeting.

Dr. Smith turned the report over to Ms. Cynthia Lenoir to discuss what SMA is doing regarding retention of members.

Ms. Lenoir stated that we have implemented a retention program. She stated that we are hiring a staff person whose sole responsibility is membership retention.

Ms. Lenoir reported on the average retention rate. She stated that our most economical and efficient recruitment program is the interim program.

Ms. Lenoir stated that last year we experienced the most successful recruitment program that we have had in many years. SMA recruited 892 new dues-paying members, which helped to reduce the decrease in membership.

Ms. Lenoir reported that over the last four and a-half years, we have recruited 1,007 new members from educational programs and retained over 70% of those members.

Dr. Smith reported that we are in the fifth year of the President's Club and 347 members have been recruited through the President's Club efforts. He stated that he feels this program has been effective.

Ms. Lenoir stated that a very important point regarding the President's Club is that it is more than membership recruitment, it is a public relations opportunity that cannot be accurately measured.

Dr. O'Leary asked if we could get the retention numbers for the President's Club to be discussed at the Council Meeting at the Annual Meeting. Dr. Holt also asked if we could get retention numbers for physicians who are renewing because of educational programs.

Dr. Smith brought up the following four points that he wanted to come from this meeting:

1. The Councilors are to receive on a monthly basis a list of non-renewing due-paying members for their state. Dr. Farmer will follow-up at the Annual Meeting.
2. Councilors are to get a list of physicians in their state for SMA.
3. Retention efforts – Staff to provide numbers and retention results on the different programs available through SMA.
4. Pursue development of an assisted living program through SMA. This type of insurance program could possibly be great for the "Baby Boomers".

Dr. Smith presented the following recommendation from the Coordinating Committee on Membership:

RECOMMENDATION: - The Oversight Committee and the Coordinating Committee on Membership recommends to the Council that the Level of Participation in the President's Club program be as follows:

Level I Recruitment of 5 new dues-paying members and 425 points – They have achieved President's Club Status; therefore, they will receive Travel Reimbursement (with SMA guidelines) for 5 nights at the annual meeting and receive a pin and \$50 gift

certificate from Purchasing.

Level II Recruitment of 3 new dues-paying members and 250 points – Travel reimbursement (within SMA guidelines) for 2 nights at the annual meeting.

Level III 250 or more points – Meal per diem (within SMA guidelines) for two days at the annual meeting and 1 complimentary ticket to the President's Doctors' Day Awards Luncheon/Symposium.

Associate Councilors must meet these levels 30 days prior to the Annual Meeting to receive reimbursement. Also, a monetary prize would be given to the state with the most new dues-paying members overall and new Prize Levels would be established based on the following:

Most New Dues Paying Members Recruited – First and Second Place – Choose from 1 of 3 prizes listed.

REPORT OF THE COORDINATING COMMITTEE ON GRANTS, LOANS AND SCHOLARSHIPS

Mr. Tim Taylor reported on the Coordinating Committee on Grants, Loans and Scholarships program in Dr. William Browder's absence.

Mr. Taylor stated that the Committee met on May 15, 1999, to review applications and select recipients for the 1999-2000 academic year for SMA Research Project Grants and Residency Training Loans. The Committee awarded a total of 18 loans at \$5,000 each for a total of \$90,000.

He stated that 24 applications for Research Project Grants were awarded for a total of \$59,874.

Mr. Taylor reported that the Committee would like the Council to be aware that it has established a policy of not awarding Research Grants that include a stipend or request for purchase of computers or computer training.

RECOMMENDATION: - The Coordinating Committee on Grants, Loans and Scholarships brought the following two formal recommendations for the Council's consideration:

- (1) We drop the U.S. Citizenship requirement for individuals applying for Residency Training Loans.

(This requirement seems inconsistent with our policy of offering an international category of membership.)

- (2) The term for committee appointments is changed to two years rather than five, renewable up to three terms. (This would make it easier to remove any committee member, who fails to attend the committees meetings consecutively, which appears to be a problem on the Grants & Loan Committee.)

REPORT OF THE CHAIRMAN

James C. Waites, M.D.

Dr. Waites welcomed everyone to the meeting. He stated that this year he would like for the Committee members to keep themselves focused on what our goals are for SMA.

Dr. Waites reported that he recently had an opportunity to visit Birmingham and talked with the staff, as well as to go to the Section Secretaries meeting in Atlanta. He stated that the education portion of the Annual Meeting is really looking good.

Dr. Waites stated that the Executive Committee's obligation is to chart the course for SMA to follow for the next several years. Dr. Waites stated that membership in associations is not the first priority for physicians today, and the more doctors become employed physicians, the more these decisions are in the hands of those who control the money.

Dr. Waites stated that this year as Chairman he would like to help the Committee focus on who we are, what

we are, what our product is, and how we can best produce that product and take that product out and sell it.

REPORT OF THE EXECUTIVE VICE-PRESIDENT/CEO

William J. Ranieri

Mr. Ranieri reported that the staff has been in a strategic planning mode and one of the major initiatives is to focus on who we are as an organization, where we think we are going, how we are going to get there, and how we would like to be perceived by our members.

Mr. Ranieri reported a booklet was developed that outlines five sections to guide us as each department develops its strategic plan. Directors have been meeting on a weekly basis with key people from their departments following these guidelines, and we are now meeting to begin the process of integrating parts one and two. He stated that he has been getting feedback from several of the directors and feels they have been doing a terrific job in being focused on our situation. He stated that we hope to be able to position ourselves to be more competitive in the next five to ten years. He stated that we hope to have a skeleton of the Strategic Plan to present to the Council at the Summer Meeting.

Mr. Ranieri stated that there is so much competition that we must identify to our members, as well as potential members, the uniqueness of SMA in terms of what we can do for members.

Mr. Ranieri reported that we have initiated a program of contacting members in the association. He stated that we have identified 30 staff as Member Service Representatives. Each month each representative receives a print-out of around 30 physicians to contact. This print-out includes two categories — physicians who have been a member for less than two years who have not participated in any programs, and members who are about to receive their final dues notice. We feel this gives us an opportunity to talk to our members

and see how they feel about our programs and inform them of new services that are available to them. At a later date, we will begin to track how many physicians have renewed their membership and how effective our calling has been.

Mr. Ranieri reported that Dr. Stephenson has been in Dallas this week beginning preparation for the Annual Meeting. He stated that we have been able to obtain William Bennett as speaker for the President's Doctors' Day Luncheon at the Annual Meeting.

Mr. Ranieri also reported that he had been at the Section Secretaries Meeting in Atlanta and feels that it was one of the best meetings that we have ever had with the Section Officers. He stated that we have created a special Internet List-Serve for the SMA Section Officers to have more effective communication with them as a group. As of this date, more than 75% have enlisted. We will now be able to use this vehicle to communicate with the Section Officers throughout the year and try to get them more involved with the total meeting.

Dr. O'Leary suggested that it would be good to have a List-Serve for the leadership only in order for them to communicate with each other.

Mr. Ranieri reported that we have been fortunate to have some of the military physicians get involved in SMA. Plans are to have CME programs designed for military physicians at the Annual Meeting.

Mr. Ranieri reported that a Task Force is being formed by Dr. Jean Edwards Holt, Dr. G. Richard Holt, and three other physicians to communicate with former students of Dr. Stephenson through the alumni of Missouri to invite them to attend the Annual Meeting and honor Dr. Stephenson as our president. A conference call is being scheduled in about two weeks to get the ground-work laid for their undertaking.

Mr. Ranieri reported that a teaser is

being mailed out in approximately two weeks to most of our members highlighting events taking place at the Annual Meeting and giving them an opportunity to register for the meeting. He stated that we have approximate 340 pre-registered from New Orleans. We are hopeful that we will have 3,000 physicians at this year's meeting. This flier will be the first in a series of mailings that will be sent to members.

He reported that we have been contacted by a group of Philippine Physicians who have started their own association, called the Philippine Physicians of the SMA. It is an independent, free-standing association that has asked us to help them get started.

Mr. Ranieri stated that in terms of marketing, we have begun to try more direct communications with our members. He stated that we are changing from a professional and service organization to a sales organization. He reported that we have been very involved in sales training. He stated that staff from the Insurance Department have gone through the sales training and five are making calls selling the fringe benefit programs to prospects in the field.

Mr. Ranieri stated that staff members from the Physicians' Purchasing Program and Membership departments are contacting physicians about the new Premium Access Program.

Dr. O'Leary suggested that in our contacting small interest groups, (5 physicians or less) why not consider offering them free admission to one of SMA's conferences in return for 30 minutes of their time at the conference.

Mr. Ranieri reported that the staff has been doing a lot of on-site calling. He stated that select staff from the Insurance Department is out 3 times a week visiting physicians' offices. Our goal is to get more visibility from our staff with direct contact with both members and non-members. He stated that at this time we have been focusing on smaller cities and are visiting more than 50-70 clinics each week. He

stated that staff from the Membership Department and PPP Department have also been visiting clinics.

Dr. Howell asked if data could be gathered on how many physicians renew their membership after joining SMA in order to attend a conference or CME course at a discounted rate.

Dr. Howell also asked if we could get data on the retention rate for young physicians in medical schools who received scholarships and joined SMA after they went out into practice.

Dr. O'Leary stated that it would also be a good idea to follow up on young physicians who received scholarships and are not members.

Dr. Howell also suggested that data be sent to the deans of medical schools as to how much money has been sent to their schools in scholarships. Dr. O'Leary asked if this data could be sent out every two to three years. Dr. O'Leary requested that the Council also receive this data.

Dr. O'Leary requested that data be sent to the Council regarding the decline in membership and the reasons for the decline within the next six weeks.

Mr. Ranieri reported that while we still have problems with the Insurance Program, everything else seems to be going pretty well except we continue to have problems with the LTD portion of the program. We hope to solve this problem by either not offering the program or getting a new program.

Mr. Ranieri reported that we have had a major breakthrough with CIGNA. Mr. Vinzant stated that CIGNA has agreed to allow us to develop group rates based upon our individual SMA group plan. He stated for the over 20 groups, CIGNA has agreed to calculate rates for that particular group based on characteristics such as, size, locale, and average age.

Mr. Taylor reported at this time SMA is showing a \$618,000 loss. He stated that this compares to a year-to-date loss for the prior year of \$1.1 million which is \$500,000 better than

where we were last year at this time.

Mr. Ranieri reported that SMA is in the process of being audited by the Internal Revenue Service for the 1996-1997 year.

Dr. O'Leary requested a breakdown of our investment strategy and how we have it distributed, as well as a profitability of those funds and how they are being managed. He would like to have this information included with the budget report at every Council meeting.

Dr. O'Leary stated that it is confusing to have our Premium Stabilization Fund included with our investments, that they should be broken out. He also stated that we have to do something to increase our reserves position. Dr. O'Leary stated that in most non-profit organizations that he is a member, they have one years operating budget in reserve in their investment portfolio, some have up to two years in reserve.

MOTION: - A motion was made by Dr. Holt and seconded by Dr. Smith for SMA to begin looking into hiring a Vice-President of Finance to focus on the finances for Southern Medical Association.

AMENDMENT: -An amendment

was made to the motion by Dr. Holt and seconded that the Chairman of the Administration/Budget Committee give an in-depth report of the financial situation by the Summer Meeting to the Executive Committee. The motion carried unanimously.

It was also recommended that the Bylaws Committee make a decision regarding selecting a Chairman of the Administration/Budget Committee that will report to the Executive Committee.

It was also requested that the Executive Committee review the investment policy that was established by the Council for SMA to follow several years ago.

Dr. Howell requested that a report from SMA Services be given to the Chairman of the Administration/Budget Committee to report to the Executive Committee of the Council.

ADJOURNMENT

There being no further business to come before the Council, Dr. Waites adjourned the meeting at approximately 12:00 p.m.

A growing roster of dedicated physicians, an Annual Meeting unparalleled for its scientific sessions, its publications, a headquarters building valued at \$2,100,000.00, Southern Orthopaedic Association, Southern Association for Oncology and Southern Association for Family Practice, Affiliates, are but a few of the Association's assets today. SMA Services, a wholly owned for-profit subsidiary providing services to SMA and its members.

Purpose of the Southern Medical Association

The exclusive purpose of this unique organization is to develop and foster scientific medicine. Conceived as an organization which could, on a regular basis, promote the progress of scientific medicine generally and in particular, attack problems peculiar to the South; established as a voluntary, non-profit organization, and chartered under the laws of the State of Alabama, the Association is independent of other medical societies, but works closely with them.

Dedicated exclusively to serving the professional needs of physicians of the South, SMA strives to bring its members into closer touch and in more perfect harmony with each other, creating a society unique in its opportunity for fraternal relationships and in its personal significance.

Although the Association has grown from a membership of approximately 200 in 1906 to a membership of over 40,000 today, its purpose remains the same and is so stated in its **CONSTITUTION and BYLAWS, ARTICLE II—PURPOSE.**

Organization and Early History of the Southern Medical Association

The Southern Medical Association, like the sturdy oak, from a little acorn grew; but this was no ordinary acorn. Its embryo contained the elements of need, vision, and opportunity embodied in a previously existing organization known as the Tri-State Medical Association of Alabama, Georgia, and Tennessee, which was composed of some two hundred physicians.

Representatives of the Tri-State group, along with representatives from Florida, Louisiana, and Mississippi, met in Chattanooga, Tenn., on October 2, 1906, in response to an invitation from the President of the Tennessee State Medical Association. The invitational letter stated that the members of the Nashville Academy of Medicine felt that "there was a growing feeling among doctors of the southern group of states that a Southern Medical Association should be organized."

These representatives, most of whom were presidents of their state medical associations, adopted a resolution for presentation to the Tri-State Medical Association, stating among other reasons, that "a greater opportunity for self-improvement and achievement in the realm of scientific research is required by the progressive and cultured physicians of the district (the South) than is afforded by the state societies, and which, on account of its large membership, is denied them in the American Medical Association." The resolution, presented the next day (October 3, 1906), called for the merging of the Tri-State Medical Association into this larger body, thereby becoming the nucleus of the proposed Southern Medical Association.

Anticipating favorable action on the resolution, a Committee on Constitution and Bylaws was appointed on October 2, 1906, with instructions to have a tentative draft of the CONSTITUTION and BYLAWS for the proposed Southern Medical Association ready to present to the Tri-State group the next day. Working all night, the Committee drafted a proposed CONSTITUTION calling for the formation of a voluntary, independent organization of physicians which would eventually embrace all of the sixteen Southern states and the District of Columbia. It further called for the Tri-State Medical Association to "thaw and resolve themselves into a dew; to die in order that the baby Southern Medical Association could be born."

In an atmosphere charged with emotion, the resolution and the tentative draft of the first CONSTITUTION were debated as the first order of business of the Tri-State group. There were impassioned pleas "on behalf of the young physicians of the Southern states for a wider field to engage our talents," as well as for "a stimulus, an

incentive to spur us on to worthy deeds to more intensive study, to greater accomplishments in the field of medicine and surgery." Jere L. Crook, M.D., Chairman, Committee on Constitution and Bylaws, tried to make the group visualize a great Southern Medical Association whose programs would deal with diseases peculiar to the Southern states and would present to the world the results of the research, the clinical experience, at the bedside and in the operating room, of the splendid body of men composing the ranks of the medical profession of the South.

Naturally, the fine record of the Tri-State group was ardently defended, citing loyalty and accomplishments of its members but the arguments for greater opportunities for scientific improvement and for a wider fellowship among physicians triumphed. The founder of the Tri-State group, J. B. Cowan, M.D., Tullahoma, Tenn., who was Chief Surgeon on the staff of Lieutenant General Nathan Bedford Forrest 1861-1865, understandably loathe to see his own brainchild die, and having pledged to fight any move to that effect, was so impressed with the "pleas of these ambitious young doctors for a chance to try their wings over all Dixie Land" that he moved the adoption of the resolution and the tentative CONSTITUTION and BYLAWS "without changing one jot or one tittle." The motion carried unanimously and thus the Southern Medical Association was born.

The work of organizing moved rapidly—a Nominating Committee was appointed, met promptly, and upon making its report, the first officers of the Southern Medical Association were elected and installed on October 3, 1906, at The Read House in Chattanooga, Tenn.

The first annual meeting was held in Birmingham, Ala. September 24-25, 1907, with a Scientific Assembly composed of three sections: Medicine, Surgery, and Ophthalmology. At this meeting H.H. Martin M.D., Savannah, Ga., first President of the Association, summarized the general feeling of the members of the Southern Medical Association in regard to their new organization when, in closing his President's Address, he said:

"I wish to express my entire satisfaction with the unqualified success of this, our first annual meeting, and to publicly thank the various Section Officers for the most excellent program furnished for this meeting. I have never seen a better one in any medical association in this country. The Southern Medical Association is tonight an accomplished fact. Its future is in your hands to make of it what you will."

Thus began the growth and development of the Southern Medical Association.

Officers and Governing Bodies of the Southern Medical Association

Just as the individual shares the responsibility of democratic government so the individual member of the Southern Medical Association shares the responsibility of managing its affairs. But a pure democracy is an inefficient and cumbersome form of organization and each of the members does not wish to study and vote on every single detail of the business of the Association. Therefore, provisions have been made whereby grants of power are distributed among officers and governing bodies.

GRANTS OF POWER...

The membership has adopted a CONSTITUTION and BYLAWS (which it may abolish, change, or amend) which invests power in, and describes the duties of certain bodies and officers of the Association. In addition, the CONSTITUTION and BYLAWS (1) states the purpose of the Association; (2) establishes requirements for and classes of membership; (3) provides for the scope and mechanics of meetings; (4) describes the manner of election, power, and duties of officers; (5) provides for the election or appointment of committees; (6) establishes and defines the administrative machinery; (7) prescribes dues and fiscal procedures and (8) provides for amendments.

OFFICERS...

The officers of the Association fall into two categories: the elected and the appointed officers. A complete outline of the duties of all officers, elected and appointed, is included in the BYLAWS.

THE GOVERNING BODIES... THE COUNCIL

Through provisions in the CONSTITUTION and BYLAWS, the membership established the Council as the governing body of the Association, and defined its composition, duties, and powers.

The Council consists of twenty members; three officers and one member representing each of the sixteen states and the District of Columbia which constitute the territory of the Association. Elected by their respective states, Councilors serve for five years and can be eligible for re-election for a second term following a five-year hiatus from ending their first term. The President shall be that person who was elected by the Council as President-Elect the

previous year and the Immediate Past President will be that person who served as President during the previous year.

Much of the detail work of the Council is accomplished by efficient use of committees created for specific purposes. Through the Association's President, the Council makes a report of its findings, recommendations, and actions to the membership at the first general session of each annual meeting.

EXECUTIVE COMMITTEE OF THE COUNCIL

The Executive Committee of the Council acts for the Council and the membership between Annual Meetings. This smaller body is composed of the President, President-Elect, Immediate Past President, and all Councilors who have served as Councilor for three or more years and are currently serving an unexpired term.

The primary function of the Executive Committee of the Council is to consider all matters of business and report its findings and conclusions to the Council for action. Any matters of such urgency that they should not wait over until the Annual Meeting may be acted upon by the Executive Committee of the Council, however.

THE BOARD OF TRUSTEES

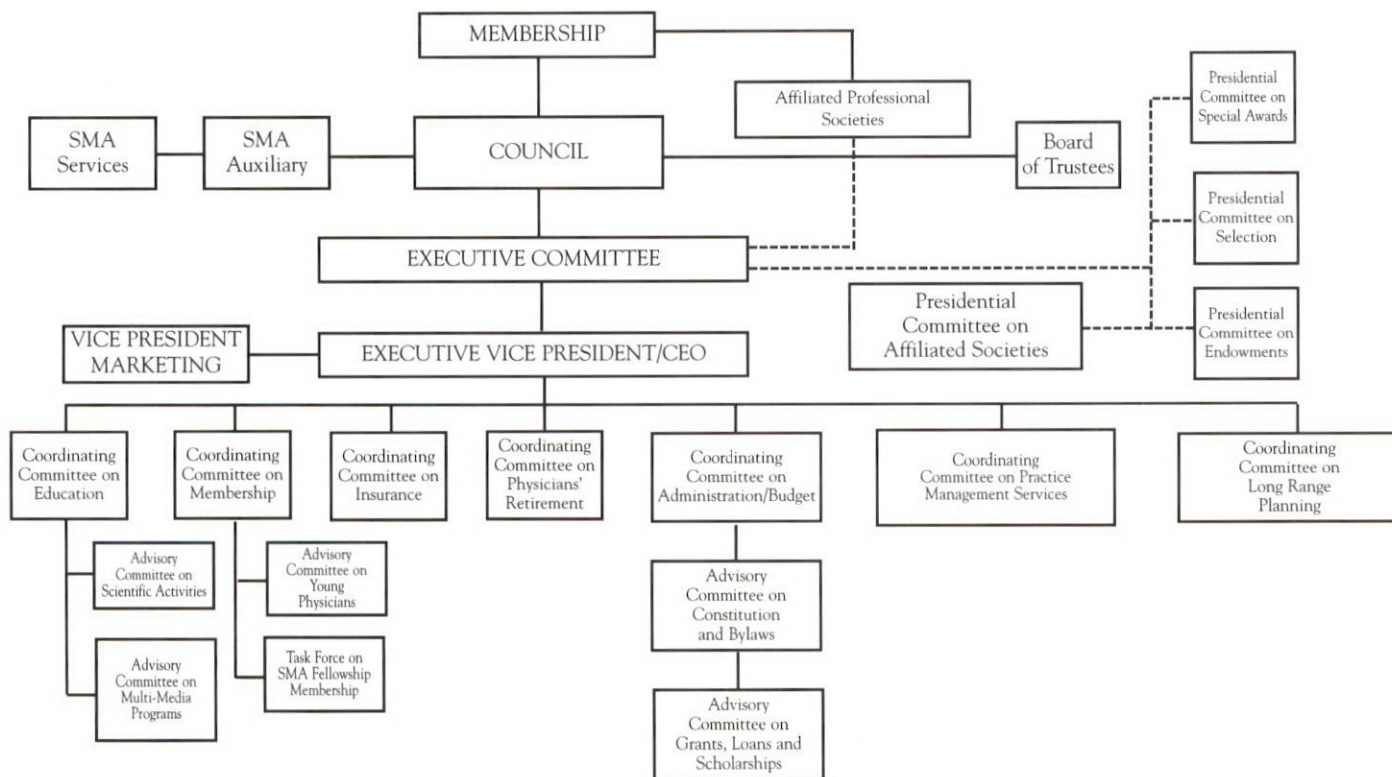

The Board of Trustees shall serve as the Auditing Committee to review the financial audit. They shall also submit an Annual Audit Report to the Executive Vice-President and the Council.

The Board of Trustees is composed of six members elected by the Council, one each year, to serve for a period of six years, with the oldest member in point of service serving as Chairman.

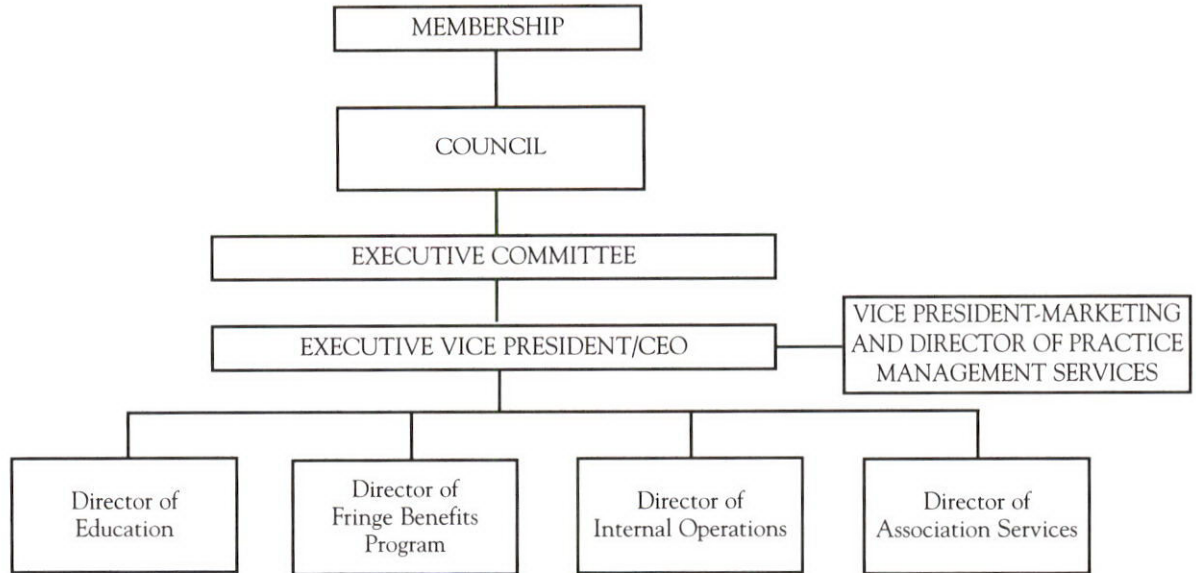

GENERAL ADMINISTRATION

By and large, the official governing bodies of the Association are policy-making groups. Decisions, programs, and policies established by the governing bodies are put into effect through (1) the administrative machinery of the Executive Vice-President and his staff at the headquarters office in Birmingham, Alabama, and (2) the Editor, Associate and Assistant Editors, and the Editorial Board.

Membership in the Southern Medical Association

WHO CAN BELONG...

The membership of SMA is by invitation to physicians eligible for membership in the following state medical societies: Alabama, Arkansas, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia, who are sponsored by the respective state Councilor, to invited medical officers of the United States Army, Navy, Air Force, Public Health Service and Veterans Administration on active duty, and to invited members of the Puerto Rico Medical Association who are citizens of the United States of America.

..The CONSTITUTION and BYLAWS of the Association provides for active membership as well as for various classes of associate and emeritus membership.

DUES...

The modest dues of the Association, which includes the member's subscription to the SOUTHERN MEDICAL JOURNAL, keeps membership in this scientific organization well within the financial reach of all physicians. Effective January 1, 2000, the annual dues were set at \$150, payable in advance, with membership effective on the date of the application.

Life membership is available to members in good standing upon application and the payment of the appropriate fee.

Activities of the Southern Medical Association

I. The Annual Meeting

GENERAL INFORMATION...

The Association's annual meeting is traditionally held in November each year in one of the cities located within the Association's territory. Dates for the Annual Meeting are selected at least 5 years in advance and conform to a Thursday-Sunday schedule. Dates and sites are subject to review and approval by the Council. All scientific activities, meetings, and exhibits at SMA annual meetings are open to physicians who are eligible for membership in their local and state medical societies whether or not they are members of the Southern Medical Association. Medical and nursing students, interns, residents, and paramedical personnel may also attend.

Generally, the format of an annual meeting consists of two parts—the scientific program and the exhibits both scientific and technical. Specifically, the scientific activities of the Southern Medical Association are divided into twenty-eight Sections, running the gamut from Allergy to Urology. Section work is augmented by general sessions, joint sessions with two or more Sections cooperating to present programs of special interest, special symposia on timely subjects, meetings of conjoint societies, postgraduate courses, scientific exhibits and posters, and technical exhibits, all designed for one purpose – to enhance the practice of medicine.

SCIENTIFIC SECTIONS...

The modern concept of Section work was instituted by the Association at its first annual meeting in Birmingham, Ala., in 1907 when scientific programs were presented in three Sections: Medicine, Surgery, and Ophthalmology. Thus the basic reason for the founding of the Association in 1906 – “to provide a greater opportunity for self-improvement and achievement...”

As specialization developed, the need for a forum for the discussion of problems and progress in these new fields developed also. The Southern Medical Association has been quick to sense these needs related to special interests and has created Sections for their benefit. The Association has often led the way in the recognition of certain specialties by being the first general medical organization to create Sections for these specialties. When interest in, and the need for more than a single session are demonstrated, and the specific needs cannot be incorporated into existing Section programs, a new Section is created for that special need. At the same time, when need for a Section no longer exists or when its work has been absorbed by other Sections, then such Sections are discontinued. This practice of being constantly alert to the needs and wishes of the physicians in the South has produced an ever-changing list of the Association's Sections. The following list summarizes the Sections created by the Association in chronological order, with any changes from the original listed under the appropriate Section.

Each Section elects its own officers—a Chairman, Secretary, and Secretary-Elect, with primary responsibility for program planning resting with the Secretary. Other officers may be elected depending on the needs of the Section.

Duties of all officers are outlined in the CONSTITUTION and BYLAWS. Section programs are coordinated in the winter at the annual Section Secretaries' Conference which is attended by the members of the Association's Committee on Scientific Activities in addition to the Section Secretaries. Every effort is made to see that well-rounded scientific programs are planned for each Section.

A physician attending a Southern Medical Association meeting is not required to attend only one Section. He/she may spend time where, in his opinion, it will be most beneficial to him. This freedom to choose provides great program flexibility, variety and personal appeal. At the same time this plan enables the Southern Medical Association to reach one of its continuing goals—helping doctors practice better medicine.

EXHIBIT HALL...

SCIENTIFIC POSTERS - In addition to the scientific sessions, postgraduate courses and symposia offered to physicians attending the annual meeting, there is an opportunity for physicians to submit and present scientific posters for display in the Exhibit Hall. Scientific posters were first introduced in 1988, and since then, submissions have continuously increased. Scientific exhibits, effective for the 1996 Assembly, have been discontinued.

TECHNICAL EXHIBITS - Technical Exhibits offer the busy physician the opportunity to view the latest drugs, medical equipment, and services on the market. These exhibits are carefully screened by Committees and represent the highest standards in quality, originality, and value. Awards are made for the most outstanding technical exhibits.

THE SOCIAL SIDE...

The annual meeting, while geared primarily for education, also has its moments of relaxation. Thriving on an informal atmosphere—where physicians from every type of practice can meet to exchange ideas—SMA has a widely known reputation for its "Southern Hospitality." Social highlights of the annual meeting include: alumni reunions, Section social events, annual golf tournament, tennis tournament, fun run, President's Reception, Luncheon, and Dinner Dance, activities for the spouses planned by the Southern Medical Association Auxiliary, and, of course, fellowship with members of the medical profession from all parts of the United States and many foreign countries.

II. Continuing Medical Education Activities

The Southern Medical Association is committed to expanding and diversifying its educational opportunities to provide a more comprehensive network of continuing medical education activities. Seminars and regional postgraduate conferences are conducted throughout the year in major cities in SMA's territory. Clinical, managed care, and reimbursement CME activities are offered to SMA members at discounted fees. SMA's satellite broadcasts reach 1,000's of health care professionals at one setting via satellite. Newly added Internet activities increase SMA's reach through the newest technology. Additional multi-media offerings including CD-ROMs, videotapes, audiocassettes, and home-study course booklets, provide self-directed learning opportunities allowing SMA members to have a choice of formats for their continuing medical education.

SMA makes every effort to fill physician's needs for Category 1 CME Credit towards the AMA Physician's Recognition Award.

MULTI-MEDIA PROGRAMS

Satellite Broadcasts

SMA's complimentary live satellite broadcasts feature nationally prominent physician speakers and offer Category 1 CME credit for physicians and CEU credits for nurses and pharmacists. More than 1,000 sites across the continental U.S., Hawaii, Alaska, Puerto Rico, and Canada have viewed SMA's live broadcasts.

Internet

More than twenty-five hours of Category 1 CME credit are available through SMA's home page at <http://www.sma.org>. Current activities include: **Medbytes**-clinical articles on miscellaneous topics within selected specialties; **Lectures On-line**-a comprehensive lecture regarding a clinical condition with supporting graphs, charts and references. SMA members receive Internet CME credit free; non-members are required to pay a fee through the protected server.

Self-Directed Learning Activities

SMA offers high quality, enduring materials in several formats. **Videotapes** for physician and patient education are available at affordable prices. Selected educational seminars are recorded on **audiocassettes** and made available for purchase. **Clinical Concepts** home-study courses provide a comprehensive review of a disease state or condition with supporting articles and references. Study booklets on risk and practice management issues are also available. **CD-ROMs** on various topics are available in both Windows and Macintosh formats.

III. Publications

THE SOUTHERN MEDICAL JOURNAL... BRIEF HISTORY

During the first years of its history, the Association did not actually own a journal. Various publications were named "official organ of publication" from time to time.

At the annual meeting held in Atlanta, Ga., November 10-12, 1908, arrangements were made for the *Medical Report of Shreveport*, Shreveport La., to serve as the official organ of publication, with the name to be changed to *Journal of the Southern Medical Association*, effective January 1909 (Vol. 2, No. 1). Oscar Dowling, M.D., Shreveport, La., Secretary-Treasurer of the Southern Medical Association, was Editor. It was discontinued as *Journal of the Southern Medical Association* as of December 1909.

The *Gulf States Journal of Medicine and Surgery*, Mobile, Ala., formerly the *Mobile Medical and Surgical Journal*, became the Association's official organ of publication in January 1910 (Vol. 16, No. 1). Owners Seale Harris, M.D., and H. A. Moody, M.D., both of Mobile, Ala., served as Editors.

The *Southern Medical Journal*, a publication privately owned by a group of Nashville, Tenn., physicians began in Nashville, Tenn., in July 1908 (Vol. 1, No. 1). It was purchased in October or November 1910 by Seale Harris, M.D., Mobile, Ala., as principal owner with some other physicians having minor financial interest. Thus, the owners of the *Gulf States Journal of Medicine and Surgery* merged this publication (Vol. 17, No. 5) with their newly acquired publication, the *Southern Medical Journal* with the December 1910 issue (Vol. 3, No. 11). Also, beginning with the December 1910 issue, the new *Southern Medical Journal* carried the additional designation of *Journal of the Southern Medical Association*. Seale Harris, M.D., Mobile, Ala., served as Editor until November 1921, and H. A. Moody, M.D., Mobile, Ala., served as Managing Editor until April 1916.

From December 1910 to May 1916, J. A. Witherspoon, M.D., W. D. Haggard, M.D., William Litterer, M.D., W. A. Bryan, M.D., and M. M. Cullon, M.D., all of Nashville, Tenn., and Oscar Dowling, M.D., Shreveport, La., were Associate Editors.

From June 1916 to October 1917, M. Y. Dabney, M.D., became Managing Editor and James R. Garber, M.D., Birmingham, Ala., became Associate Editor. From December 1917 to December 1919, Dr. Dabney served as Acting Editor while Dr. Harris was on active military duty. From January 1920 to November 1921, both Dr. Dabney and Dr. Garber were designated Associate Editors.

In November 1921 the Southern Medical Association, with a membership of 6,328, purchased the *Southern Medical Journal* from Dr.

Harris and his co-owners and elected Dr. Dabney, Editor. Dr. Harris resigned as Editor at that meeting. Dr. Dabney served as Editor from December 1921 to December 1954 and his wife, Eugenia B. Dabney, served as Assistant Editor, 1930-1935, and Associate Editor from 1935 until December 1954.

Curtice Rosser, M.D., Dallas, Tex., and Tinsley R. Harrison, M.D., Birmingham, Ala., were Associate Editors from January 1951 to December 1954. Curtice J. Lund, M.D., New Orleans, La., served as an Associate Editor from January 1951 to December 1952. Howard L. Holley, M.D., Birmingham, Ala., served as an Associate Editor from January 1954 to December 1954.

Others who have served as Assistant Editor are Harris D. Riley Jr., M.D. (1967-1970), Sam E. Stephenson Jr., M.D. (1968-1990), Addison B. Scoville, Jr., M.D. (1976-1989), and J. Leonard Goldner, M.D. (1971-1974).

R. H. Kampmeier, M.D., Nashville, Tenn., became Editor and Mr. V. O. Foster, Birmingham, Ala., Managing Editor, effective December 1, 1954. Mr. Robert F. Butts, Birmingham, Ala., became Managing Editor, December 1, 1960. Harris D. Riley, Jr., Oklahoma City, Okla., became Associate Editor of the *Journal* in January 1971, and assumed the role of Editor in January 1973, upon Dr. Kampmeier's retirement. Dr. Kampmeier was retained as Advisory Editor. In September 1977, John B. Thomison, M.D., of Nashville, Tenn., was appointed Editor succeeding Dr. Riley.

Beginning in 1980 William J. Ranieri became Managing Editor of the *Journal*. In July 1992, the Council voted to name Dr. Thomison Editor Emeritus upon his retirement at the end of that year. In January 1993 J. Graham Smith, Jr., M.D., became Editor.

With sound business and editorial management, the *Journal* has not only grown in size and financial stability, but it has also grown in scientific stature and influence. Its cumulative contribution to the medical literature parallels and mirrors the growth and scientific development of medicine in the South.

The Journal Today

Throughout its entire life, the *Southern Medical Journal* has adhered to its main objective announced in the first issue: to help doctors practice better medicine by bringing to them high quality, original articles by leading medical researchers and specialists and general information of concern to the medical profession.

The *Southern Medical Journal* is a general medical publication which presents monthly some 35 major articles, many of them illustrated with photographs and drawings. Its contents are as broadly based as the practice of medicine and surgery.

Articles are chosen from hundreds submitted and from the 400 or so papers presented at the annual scientific sessions by leaders in the various specialized fields of medicine.

Offices of the *Journal* are in the headquarters building of the Southern Medical Association in Birmingham, Ala. The Editor, J. Graham Smith, Jr., M.D., is a practicing dermatologist in Mobile, Ala.

Assisting the Editor are Associate Editors Richard D. deShazo, M.D., Angus M. McBryde, Jr., M.D. and Ronald C. Hamdy, M.D.; 11 Assistant Editors; the Editorial Board (established by Dr. Kampmeier in 1954), which now consists of 39 members appointed by the Editor with the consent of the Council; and the Advisory Committee to the Editorial Board, which is composed of the Secretaries of the Scientific Sections of the Southern Medical Association.

Today the *Southern Medical Journal* goes into the 16 Southern states and the District of Columbia which comprise the Association's membership territory, as well as all other states, Puerto Rico, the Virgin Islands, the Canal Zone, and 22 European and Asiatic countries. One of the most influential medical publications in the world, the *Journal* brings to practicing physicians knowledge that will enable them to provide the best possible care for patients in this age of rapidly changing modern medicine.

THE SOUTHERN MEDICAL BULLETIN...

When the Association was only three years old—at the New Orleans Meeting, November 9-11, 1909—the Council recommended the publication of a quarterly bulletin. On November 1, 1912, the *Southern Medical Bulletin*, Volume 1, Number 1, was issued. It included the program for the forthcoming Annual Meeting and other information about the Association. The Council approved this bulletin, authorized its continuance, and the *Southern Medical Bulletin* has been published quarterly since 1912.

At the Miami Beach Meeting in 1957 a proposal to expand the quarterly *Southern Medical Bulletin* to a monthly publication was reviewed and approved by the Council. The first step of the proposed expansion was taken when the new format of the *Southern Medical Bulletin* was introduced with the March 1961 issue with R. H. Kampmeier, M.D., Nashville, Tenn., Editor. The *Bulletin* was accepted overwhelmingly by the Southern physicians.

The purpose of the *Bulletin* was to provide interesting and up-to-date scientific and non-scientific information for virtually all of the practicing physicians in the Association's membership territory and to stimulate interest in the Association and its various activities.

Each issue was designed to be of reference value, covering various subjects of interest such as current VD problems, cancer, rehabilitation, alcoholism and habituating drugs, family planning, roadside injuries, and the impact of the federal government upon medical care. From 1912 through 1968 the September issue of the *Bulletin* contained the preliminary program for the Annual Meeting. The second step in expanding the *Bulletin* came in 1969 when all four of the quarterly issues followed the basic format, but with increased size, and the preliminary program for the Annual Meeting was published separately. During 1970 the *Bulletin* increased to six issues, one every other month.

Southern Medicine

In January 1972, the name of the *Southern Medical Bulletin* was changed to *Southern Medicine*.

After a great deal of thought and intensive costs analysis, it was decided on February 11, 1978 to terminate publication of *Southern Medicine* in its existing form.

Today, *Southern Medicine* provides important information concerning SMA's educational programs and services for its members, including details for upcoming seminars, workshops, post-graduate courses, and the annual meeting, as well as information on Dial Access, Video Access, and Audio Access offerings. *Southern Medicine* also provides up-to-date information on the benefits and services offered through the Association, including those of the Fringe Benefits Program, the Physicians Purchasing Program, SMA Travel Services, and Design Print, the Association's graphic design service.

In addition, *Southern Medicine* also regularly features articles concerning socio-economic and other issues of importance to the physician and his practice, as well as spotlights on various members of the Association and regular messages from its leading officers.

Southern Medicine is published quarterly (January, April, July, October) and is provided free of charge to all dues-paying members of the Association.

IV. Residency Training Loan Fund

ORIGINALLY A GRANT PROGRAM...

Recognizing the increasing need of financial assistance for those physicians who had completed their formal education, but who are seeking additional education in the form of residency training and fellowships, the Southern Medical Association established the Southern Medical Association Residency Training Grant Fund at the Miami Beach Meeting, November 1962. This project of the Association provided funds to allow a physician to complete a chosen number of years of training without adding to his previous indebtedness and still receive an income, which, while not necessarily commensurate with his education and value, would allow him a comfortable existence during this training period. The first four grants under this program were awarded in 1963 for the residency year 1963-1964. Five grants were awarded in July 1964; seven, July 1965; ten, July 1966; eleven, July 1967; fourteen, July 1968.

The Grant Fund was established so that recipients as well as other members of the Association, could make tax-deductible donations to the Fund thereby increasing the number of residents who could be assisted. While recipients of a grant assumed no legal obligation to repay, it was hoped all would assume a moral obligation to do so.

THEN A LOAN PROGRAM...

At the New Orleans Meeting, November 1968, the Council voted to change the existing Residency Training Grant Fund to the Residency Training Loan Fund and the Association's CONSTITUTION and BYLAWS were amended by changing the committee's name to the Committee on Grants and Loans. The amount available for loans for the year July 1969-July 1970 was \$30,000.

THEN A GRANT PROGRAM AND LOAN PROGRAM...

In order to provide assistance to those in financial need as well as give recognition to exceptional individuals, greater flexibility was needed in the program. Therefore, the Council voted at the Atlanta Meeting, November 1969, to give the Committee on Grants and Loans full authority to determine the needs and merits of each applicant and decide if a grant should be awarded or if a loan should be approved. The total amount of funds available for grants and loans for the year July 1, 1977-June 30, 1978 was \$40,000 (\$10,000, grants; \$30,000, loans).

NOW A LOAN PROGRAM...

At its Midwinter Meeting in Birmingham, Alabama, February 13, 1977, the SMA Executive Committee of the Council voted to discontinue giving grants under this program and made it strictly a loan program.

In November 1988 the council voted to increase the amount available for Residency Training Loans and Research Project Grants to \$150,000 (from the previous amount of \$100,000) to become effective July 1, 1989.

RULES GOVERNING THE LOAN PROGRAM...

V. Research Project Fund

Members of the Committee on Grants and Loans observed that funds for initiating small research projects were not readily available in most medical centers or training areas. Therefore, at the Annual Meeting, November 1969, the Council established the SMA Research Project Fund. This Fund originally consisted of \$6,000 annually from which grants could be made to those participating in investigative projects. Due to the large number of applications received for grants from this Fund during the first year of operation, the Committee on Grants and Loans recommended to the Council at the Dallas Meeting, November 1970, that the amount of grants be increased to \$20,000 annually (July 1-June 30). This Fund is under the direction of the Committee on Grants and Loans.

At the New Orleans Meeting in November 1976, the Committee on Grants and Loans recommended that the amount for grants be increased to \$40,000 annually. In 1982 the Committee on Grants and Loans approved a grant increase in the amount of \$20,000, making the total amount available \$60,000.

In November, 1988 the Council of the SMA voted to increase the combined amount available for Research Grants and Residency Training Loans to \$150,000 from the previous amount of \$100,000. This would become effective July 1, 1989.

VI. Medical Student Scholarship Fund

Recognizing the need for providing assistance to third-year medical students, particularly those of superior abilities, the Council established the Southern Medical Association Medical Student Scholarship Fund at the Atlanta Meeting, November 1969. This fund now provides \$1,500 of scholarship per medical school located within the territory of the Southern Medical Association and is under the direction of the Advisory Committee on Grants, Loans and Scholarships.

VII. Southern Medical Research and Education Foundation

In 1986 SMA established an Educational Endowment Fund to provide funding for the scholarships, research projects and other programs supporting the educational purposes of the Association. The Association's five year goal is to obtain \$1.5 million in endowment principal. In December 1987, SMA launched a Planned Giving Program incorporating the existing Endowment Fund with several other options for charitable giving. Donors may target gifts for scholarships, lectureships or special educational programs through gifts from various means including bequests, life insurance, real estate, or securities. With any gift, donors may establish memorials for deceased loved ones or recognition for a colleague.

In November, 1988, Southern Medical Research and Education Foundation was established at the charter meeting of the SMA Ad Hoc Funds Development Committee.

Purposes of the Foundation are to provide an investment in the future of medical and health care delivery, to stimulate interest in conducting research, to provide financial aid to deserving medical students and to recognize or memorialize donors and their designees.

In 1991, the Committee on Endowments approved a formal recognition program for contributors to the Research and Education Foundation as follows:

The Society of 1906

The establishment of the "Society of 1906" was approved in 1990 in Nashville. The Society recognizes major contributors to the Foundation. SMA physicians may become members of the "Society of 1906" by contributing \$5000 to the fund over a five year period or by making a \$20,000 bequest. Recognition and benefits of the "Society of 1906" include:

- "Society of 1906" medallion
- "Society of 1906" tie and Annual Meeting Ribbon
- "Wall of Fame" picture at Annual Meeting
- Annual Black-Tie Reception

The twenty-seven Charter Members of The Society of 1906 were honored at the SMA's 85th Annual Scientific Assembly in Atlanta in November of 1991. Charter Members attended the first annual black-tie reception and were given a beautiful medallion representing their commitment to the goals of SMA's Research and Education Foundation. As of 12-15-99, The Society of 1906 had seventy-three (73) members.

Donations to the Southern Medical Research and Education Foundation may be sent or inquiries directed to Southern Medical Association Research and Education Foundation.

VIII. Awards

The Southern Medical Association has created from time to time awards so that the Association might honor worthy members. Presently there are three official awards of the Association; the Distinguished Service Award; the Seale Harris Award; and the Original Research Award. Nomination and application forms, which may be obtained from the headquarters office, must be received at the headquarters office by August 1.

All nominations and applications are considered by the Committee on Special Awards. This confidential Committee, consisting of five members with the Vice-President as Chairman, is appointed by the President to evaluate the contributions of the various candidates for special awards. If suitable candidates are selected by the Committee, it submits the names of not more than three such members to the Council for each award. The Council may then select one for each respective award and presentation of the awards takes place at the last general session of the Annual Meeting.

THE RESEARCH MEDAL...

During the 1912 Annual Meeting in Jacksonville, Fla., the Association established the Research Medal which could be awarded from time to time to a member of the Association for meritorious and original research work provided the member had made contributions to medical science of sufficient importance to merit this distinction.

IX. Southern Medical Association Auxiliary

During the Southern Medical Association Annual Meeting in Washington, D.C., November, 1923, Mrs. Seale Harris of Birmingham, Alabama, was chosen to organize an Auxiliary for this group. The proposed Auxiliary was organized the following year during the SMA Annual Meeting in New Orleans, Louisiana. There were 88 charter members from 16 states and the District of Columbia.

Spouses of members of the Southern Medical Association are automatically members of the SMA Auxiliary and there are no membership dues. Membership is limited to spouses of physicians who are members of SMA and widows/widowers of deceased members who were in good standing at the time of death.

Through the year, the SMA Auxiliary participates in several interesting projects, including the promotion of Doctors' Day, the encouragement of participation in Medical Heritage (Research and Romance) projects, Health Education Awareness, and Membership. The

Auxiliary also maintains a close relationship with the state medical auxiliaries in each of its member states and aids in the promotion of membership in the Association.

The Southern Medical Association Auxiliary has made an organized effort to develop meaningful programs for the spouses of SMA members.

To improve communications, the SMA Auxiliary publishes a newsletter entitled SOUTHERN CONNECTION. This newsletter serves as a vehicle for presenting information, programs, and services available to Auxiliary members from the Southern Medical Association. It also helps to inform Auxiliary members around the region of activities of interest underway for various Auxiliary members.

The Southern Medical Association Auxiliary continues to grow in strength and in dedication, always striving to build a stronger and more effective organization.

WHO IS ELIGIBLE?...

SMA members, associate members, and their family and employees.

1. DEVELOPMENT OF SALES ORGANIZATION

In order to meet the more complex and growing needs of program participants, a new sales philosophy was adopted in 1993. Rather than relying on direct mail and telephone contact to promote and market the program, a sales organization was created with the ultimate goal of having an SMA Regional Representative located within driving distance of ninety percent of the membership. Today the sales organization includes 14 regional representatives who actively service existing program participants and promote and market the program's products and services to the general membership.

2. INVESTMENT AND FINANCIAL SERVICES

At the same time that the sales organization was created, a decision was also made

to increase the scope of products and services made available to the membership through the SMA Retirement Program. Effective October 1, 1993, SMA Services, Inc. entered into a business relationship with ProEquities Inc. to make available to Southern Medical Association members the opportunity to purchase such products as Mutual Funds, Bonds, Variable Annuities and Specialized Life Insurance products. ProEquities, Inc. is a wholly owned subsidiary of Protective Life Corporation, a holding company located in Birmingham, Alabama. ProEquities, Inc. is a member of the National Association of Securities' Dealers (NASD) and Securities Investors Protection Corporation (SIPC). SMA Services, Inc. will be providing administrative support for the activities of ProEquities, Inc. being conducted at the Southern Medical Association headquarters in Birmingham, Alabama.

SMA's own Coordinating Committee on Physicians' Retirement has managed the development of this program. The Committee will continue to monitor program operation to ensure that the products and services offered are consistent with the needs of physician members. With a wide range of products and services now available through the SMA Retirement Program and the qualified sales organization in place to deliver these products and services, the SMA Retirement Program is poised to meet the competitive challenges of the next century.

III. SMA Physicians' Purchasing Program

Since the inception of the Physicians' Purchasing Program in 1982 discounted medical professional and consumer items have been purchased by more than 12,500 members of the Southern Medical Association.

The Physicians' Purchasing Program is one of the largest and most comprehensive programs of its kind available to physicians and negotiates contracts with manufacturers and vendors for the distribution of discounted products to its members. All products selected for the program must be of highest quality; must be backed by outstanding service; and must be competitively priced.

As a PPP member you will receive our Bi-Monthly Showcase featuring the latest in products and services available through the program. Each year you will also receive a comprehensive catalog of namebrand products all at discounted prices. Customer service representatives are available via

a toll-free number to answer questions or quote prices on most professional and personal items on the market today.

SMA's distributor network allows for prompt delivery and outstanding service on thousands of items.

Professional items available through the Purchasing Program include 70,000 medical/surgical products including vaccines and injectables. Diagnostic capital equipment and computer supplies are also available. A wide range of personal items available include jewelry, luggage, automobiles and cameras. SMA offers an extensive catalog of personal electronic devices such as TV's, VCR's, Camcorders, and stereo systems from the world's most noted manufacturers. V. SMA Marketing and Design Print

SMA Design Print was formed as SMA Graphics in 1984 to help defray the costs of typesetting for *Southern Medical Journal*, as well as other publications of the Association. The division has grown to become a full-service graphic art, imaging, and typesetting production house, creating all of SMA's publications, direct mail, and advertisements. Design Print also makes its graphics services available to the SMA membership and the general public.

The division immediately realized its goal of saving the Association money and is proud to offer its services at extremely competitive prices.

In 1991 the Marketing Department and the Graphics division combined activities to become a full service in-house resource that performed not only the Association's graphics and typesetting functions, but also all facets involved with internal marketing planning, creative development, corporate marketing, public relations, and communications.

As a division dedicated to service, some of the revenue generated by Design Print has been applied to the expansion and enhancements of

the services it provides. In 1994 the division moved to a more spacious location minutes away from SMA's headquarters building to accommodate its newly established small printing service and its enhanced imaging services. In moving to a stand-alone location, the division changed its name to Design Print to create more appeal, visibility, and understanding of its services to the general public. The print division was intended to satisfy many of the smaller printing needs of the Association at a fraction of the commercial cost. SMA's Marketing department supervises the print production for all projects that necessitate the assistance of outside printing vendors. Design Print's imaging services allow for significant cost savings by saving the cost of preprint filmwork from outside vendors. Together, these have grown to be some of Design Print's most popular and cost-saving services. SMA Marketing and Design Print continue their efforts to meet the needs of SMA membership, staff, and the local public by providing the most complete and technologically modern services available.

VI. SMA Travel Services

SMA Travel Services was developed in 1987 to handle the travel arrangements for Southern Medical's rapidly expanding educational programs and numerous committee and council meetings. In addition, Travel Services began arranging the annual meetings for the affiliated societies. These programs alone have made SMA Travel very successful. However, as SMA members became familiar with the services available through SMA Travel, requests for personal vacation and business travel increased. SMA Travel now operates as a full service agency reflecting the SMA tradition of quality service and efficiency.

SMA Travel offers the knowledge of an experienced travel staff, trained with an emphasis on service. All types of travel needs can be met whether it be international, domestic, vacation,

or business. SMA Travel also provides extensive special meeting planning services offering group room rates as well as savings for air travel in conjunction with a meeting.

As an added membership benefit, in 1990, SMA Travel developed the SMA Travel Club. Members of the travel club enjoy special discounts offered by selected tour companies, cruises, car rentals, and hotels. In addition, Travel Club members receive a monthly newsletter highlighting special trips and promotions in addition to important travel information.

SMA Travel Services strives to meet the needs of SMA members by offering personalized travel services often neglected in the travel agency industry today.

Headquarters Office and Staff of the Southern Medical Association

Prior to 1910, physicians elected to the office of Secretary, Treasurer, or Secretary and Treasurer maintained Association records. In that year, Seale Harris, M.D., of Mobile, Alabama, was elected Secretary and Treasurer. He maintained the Association offices in Mobile until July 1915, when he relocated to Birmingham, Alabama, and moved the Association's offices to the Empire Building. Dr. Harris served as Secretary and Treasurer, as well as Editor, until his retirement in 1921. While Dr. Harris was on active military duty from November 1917 until November 1919, James R. Garber, M.D., was Acting Secretary.

Upon Dr. Harris' retirement, Mr. C. P. Lorz of Birmingham was named Secretary-Treasurer and Business Manager, a position he held until November 1928. He had worked for Dr. Harris as Business Manager of *Southern Medical Journal*, which was then privately owned by Dr. Harris. Mr. Lorz was designated Assistant Treasurer of the Association in November 1914 and Business Manager in November 1916. His title was changed to Secretary, Treasurer, and General Manager in November 1928, and, under the all-inclusive title of Secretary-Manager, he served until December 1, 1954.

On that date, Mr. V.O. Foster of Birmingham took over the executive duties of the Association with the new title of Executive Secretary and Treasurer, with a five-year contract. However, the Council, wishing to continue using the vast experiences of Mr. Lorz after his retirement, voted to retain Mr. Lorz as Advisor and Professional Relations Counselor for a period of three years. This arrangement was renewed for a second three-year period ending December 1, 1957. Mr. Butts, who had served as Assistant to the Secretary-Manager, 1948-1950, and Assistant Secretary-Manager, 1950-1954, was elected Business Manager with a five-year contract beginning December 1, 1954.

In September 1959 Mr. Foster became ill before fulfilling his contract. Mr. Butts was asked to serve as Acting Executive Secretary and Treasurer until further notice in addition to continuing as Business Manager.

At the Dallas Meeting, November 1961, Mr. Butts was given the title of Executive Director,

which would include his present titles of Executive Secretary and Treasurer, Business Manager, and Managing Editor.

Following a Constitutional change in November 1977, Mr. Butts assumed the title of Executive Vice-President. The Bylaws were changed during the New Orleans Meeting in November 1976 to reflect this change.

Mr. Butts retired from his position as Executive Vice-President on July 1, 1980, but remained as a Consultant until December 1981.

Mr. William J. Ranieri was appointed the New Executive Officer in August 1980.

In March 2000 Mr. James H. Leverett was appointed the new Executive Officer.

In 1984 SMA Services, Inc. was organized as a wholly owned subsidiary, and Mr. Ranieri was appointed as its President and Chief Executive Officer.

Mr. James H. Leverett was appointed as its President and Chief Executive Officer in March 2000.

THE HEADQUARTERS OFFICE

The Association's offices were in the Van Antwerp Building, Mobile Ala., from November 1910 until July 1915 and in the Empire Building in Birmingham from July 15, 1915 until 1958.

Ground-breaking ceremonies for one of the country's most modern association buildings were held on August 4, 1957. The split-level structure of masonry and glass, located at 2601 Highland Avenue, Birmingham, completed at a cost of \$250,000 was dedicated September 7, 1958.

The headquarters office contained 6,854 square feet of space and was situated on a lot of nearly one and one-half acres. It provided a meeting place and business center, executive offices, offices for the Association's publications, Auxiliary room, mailing room, conference room, and storage space.

In July 1984, the headquarters office was moved to a new building at 35 Lakeshore Drive. Tastefully furnished, the building contains 22,000 square feet of space and is situated on 2 acres with beautiful landscaping, convenient to the interstate system. The office building has easy access to all areas of Birmingham and is only 15 minutes from the airport.
